Find your perfect Mitutoyo Carbon Fiber Caliper

Large measurements shouldn't require super strength.

- > Ultra-lightweight design (with carbon fiber reinforced material) reducing the total weight by up to 50%.
- > Excellent resistance against water and dust (IP 66 protection level), perfect for use in the roughest of machining situations.
- > Direct readout of inside measurements from the LCD (offset value can be set with just the push of a button).
- > Featuring a preset function for setting a desired starting point.
- > Available in many different sizes, with and without ceramic jaws, perfect for magnetic or abrasive workpieces.
- > Suitable to a range of applications, the carbon fiber calipers are available with a variety of optional interchangeable jaws.

Modernized to meet your needs.

- > Statistical Process Control output transmits data to a Mitutoyo mini-processor or computer.
- > With a measuring resolution of 0.01 mm, even the most detailed measurements can be made.
- > Coming with Mitutoyo's ABSOLUTE scale, data is accurate from power-on without the need for origin setting.
- > Extremely quick, the Carbon Fiber Calipers have response speeds of up to 1600 mm/s.
- > Coming with adjustable jaws, certain variants are can measure even the oddest of workpieces.
